EXPERIENCE

UX Design Intern, Her UX Path

March 2025 - Present

- Contributed to HerUX Path, a community-focused organization supporting over 17,000 UX designers at all levels, by conducting user research to uncover pain points, develop strategies that encourage new members to join, and foster ongoing support for existing designers.
- Conducted user surveys and interviews to identify pain points and gather feedback from both new and existing members, helping shape strategies to improve community engagement and support.
- Contributed to a 160% increase in traffic growth by implementing ideas informed by user research and feedback.

UI/UX Design Intern, Nuubi

June 2024 - Dec 2024

- Drove user research and design enhancements at Nuubi, an e-learning startup, to elevate the mobile app experience.
- Researched visual learning styles and developed targeted badge concepts, improving user engagement through tailored gamification.
- Designed and refined a core platform feature allowing students to create study groups, driving collaborative learning and increasing peer-to-peer engagement.
- Collaborated closely with cross-functional teams, including product managers, developers, and marketing professionals, to translate wireframes and prototypes into effective, attractive designs.

UI/UX Design Intern, Triiodide Studios

May 2023 - September 2023

- Conceptualized an in-game inventory system for the Steam game, "Backrooms: Escape Together" that reached almost 2 million players.
- Created detailed UI mockups and interactive prototypes, ensuring alignment with the game's aesthetic and user experience goals.
- Actively participated in feedback sessions, refining UI/UX designs based on team input and testing results to optimize user interaction.
